EDUCATION

Michigan State University, College of Engineering, East Lansing, MI
Bachelor of Science, Major in Computer Science, Minor in Business

Apr. 2027

- GPA 3.36/4.00

EXPERIENCE

Oakland County – Information Technology, Pontiac, MI

May 2026 – Sep. 2026

Engineering Business Analyst Intern

- Tested and validated 2,500+ webpages during a county-wide GovAccess-to-Sitefinity CMS migration, identifying content, formatting, link, and functionality discrepancies across browsers and devices.
- Developed an Excel and Power Query project dashboard to organize migration data and track page-level QA status, pass/fail results, department progress, and overall project statistics, improving visibility into migration progress for the IT team.
- Executed dual maintenance across 40+ department websites during phased migrations, leveraging Azure DevOps boards and backlogs to track changes within an Agile environment and contributing to sprints and stand-ups.

Arum, East Lansing, MI

Jan. 2026 – Apr. 2026

Software Developer

- Built core front-end interfaces including a dashboard, project request management page, and interactive workboard using React, Next.js, and TypeScript.
- Implemented 8+ interactive UI features including drag-and-drop workboards, search filtering, request status management, and image carousel galleries using Tailwind CSS and shadcn/ui components.
- Collaborated with a team and startup client in weekly meetings to gather requirements, fix UI bugs, and iterate on front-end functionality across 11+ TypeScript files, using GitHub for version control.

Ellie Mental Health, Novi, MI

Jan. 2023 – Jan. 2026

Marketing Coordinator

- Designed and managed brand-specific digital media assets (social content, merchandise, affirmation cards) using Canva and Meta Business Suite to support brand visibility.
- Collaborated with therapists, specialists, and 3+ other franchise locations through Microsoft Teams to standardize marketing and support requests.
- Processed 300+ billing documentation and ERA entries using Valent with high accuracy and consistent data quality.

SKILLS

- **Programming Languages:** Python, C++, JavaScript, TypeScript, SQL, HTML/CSS
- **Frameworks/Libraries:** React, Next.js, Tailwind CSS, shadcn/ui, Flask
- **Tools:** Git/GitHub, VS Code, Docker, Node.js, Azure DevOps, Jira, Microsoft 365, Excel/Power Query
